**MUDA
Scam?**

What is the Karnataka MUDA scam?

- ▶ The **Mysuru Urban Development Authority (MUDA)**, originally called the City Improvement Trust Board (CITB) when it was created in 1904, is responsible for urban planning and development in Mysuru.
- ▶ One of its roles is to acquire land for residential layouts. However, MUDA has faced legal problems due to incomplete land acquisitions.
- Media reports **alleged gross irregularities in the allotment of residential sites by MUDA to land losers as compensation, including** Karnataka Chief Minister Siddaramaiah's wife, Parvathi.

- It was alleged that she had **been allotted 14 sites in an upmarket residential layout in lieu of her 3 acres and 16 guntas of land** that had been acquired by MUDA to develop a layout.
- **Mr. Siddaramaiah** and the Congress leaders have **clarified** that the allotment of residential sites to Ms. Parvathi was **within the legal framework of the 50:50 ratio scheme** envisaged by the cash-strapped MUDA to compensate land losers
- MUDA started a 50:50 ratio scheme in 2020. This plan gives 50% of the developed land to the original landowners and allows MUDA to keep the other half.

What is the 50:50 ratio scheme?

- While an acre of land comprises around 43,000 to 44,000 square feet, only about 23,000 square feet of developed land is available for residential sites as the remaining goes towards roads, parks, civic amenities (CA) site and other amenities.
- Out of the 23,000 square feet of developed land for every acre, 50% or 11,500 square feet is allotted to the land loser and the remaining 11,500 is retained by the MUDA, .

NPCI connectivity with C-Edge Technologies re-established

1 August 2024 : NPCI connectivity with C-Edge Technologies Ltd. has been re-established following security review by an independent forensic auditing firm. Investigation confirms that the impacted systems have been isolated by C-Edge to contain potential spread of the ransomware.
